

# SUSTAINING ECONOMIC GROWTH IN ASIA

A nighttime photograph of a city skyline, likely Seoul, South Korea. The Lotte World Tower is the most prominent feature, a tall, slender skyscraper with a distinctive top, illuminated with warm lights. Other buildings of varying heights are also lit up, creating a vibrant urban scene. In the foreground, a long bridge with multiple arches spans across a body of water, its lights reflecting on the surface. The sky is dark, making the city lights stand out.
