- ✓ *Multidisciplinary and critical sense of reality*

**Aim and General Outline**

There are a number of challenges that East Asia (including both Northeast Asia and Southeast Asia) must address if it is to maintain its economic role as one of the leader of the world. International Graduate Programme for East Asia Sustainable Economic Development Studies is designed to provide international students with both advanced Academic knowledge and practical skills. Students will have many opportunities to conduct field research at diverse sites such as large manufacturing plants and small factories, cutting edge businesses and rural farming communities throughout East Asia so that students can develop a multidisciplinary and critical sense of reality. Teaching and supervision will be conducted in English.
