[Evaluation methods and policy]

Grades will be based on the following:

- Active class participation (credit will not be given for more than two absences) - 20% of final grade.
- three short feedback essays (500 words) to be completed by each individual, submitted after each block* of lecture - 40% of the final grade. (* Block 1: JICA lectures, Block 2: lectures from business entities, Block 3: lectures from NGOs)
- one final essay (1,500 words) to be completed individually or in a small group (2-3 people) after the course is completed - 40% of the final grade.

There are two options to complete the final project:

Option 1: Write a pitch (proposal) for a development project that you would hypothetically present to one of the course lecturers. For example, you could choose a problem that was raised during one of the classes and propose a solution. You could also present a project or idea that you think would solve an issue or problem that you are interested in. Your pitch should include a succinct description of the project, which lecturer(s) you would hypothetically present it to and why; and, how you think the lecturer would react to your ideas.

Option 2: Write an argumentative essay about which lecture was the most interesting or the most convincing. The article must include a set of reasons supported by evidence (facts) from the classes. Evidence can be what a lecturer said, the materials that s/he used during the lecture, and/or how they were presented.
